

The Cathedral made of steel

An amazing work of design
"Made in Italy"

The Italian company **Eurotubi Europa** is looking for a prestigious location willing to host the artwork "**Duomo pressfitting**", a faithful reproduction of Milan Cathedral entirely made with carbon steel pipes and fittings.

The artwork has been used for promotional purposes during some trade fairs, enjoying widespread appreciation. Now it is available to be exhibited free of charge in a public or private setting.

Dimensions: 9,8 ft (width) X 13 ft (length) X 9,8 ft (height, including basement).

Weight: 2.645 pound.

Material used: more than 2400 pressfittings and about 23.622 inches of piping.
